

AEC Q007 WG update

ROMUALD ROUCOU (NXP) ON BEHALF OF THE WORKGROUP

AEC RELIABILITY WORKSHOP BORDEAUX 2025
OCTOBER 8TH, 2025

AEC Q007 – Update

- Guideline document published in March 2024.
- Meeting approximately every 2 months with good participation
 - 5 new members joined after publication of the guideline document as replacement of own colleagues or from companies not represented previously.
- No specific concern raised by the Work Group related to the Q007 and subdocuments, except for the section related to passive components.

AEC Q007 – Update

- 2 documents received from the Q200 WG:
 - Each document has been discussed in the WG in view of the objectives of the Q007 document
- Q007 WG alignment on the reply and proposals provided in September to Q200 WG.
- Next steps and alignment to be discussed
- Any other topic you think should be addressed by the Q007 WG?
